

FISCAL NOTE

HB 3495 - SB 3827

March 18, 2006

SUMMARY OF BILL: Excludes artificial insemination of livestock from the definition of “veterinary medical services” and “veterinary services” and deems it a livestock management practice and therefore exempt from licensure requirements. Requires the Board of Veterinary Medical Examiners to refund all monetary funds and civil penalties imposed and collected in FY04/05 and FY05/06 for the artificial insemination of livestock without a veterinary medical license.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues – Not Significant

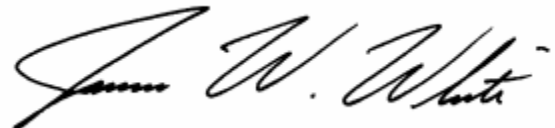

Decrease Local Govt. Revenues – Not Significant

Assumptions:

- Any decrease in state or local government revenues due to this new exemption in licensure requirements is estimated to be not significant.
- The monetary fines and civil penalties collected for this offense is estimated to be not significant and therefore the return of these monies would have a not significant decrease in state revenues.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
